### **Day 4: Okavango Delta, Guma Lagoon**

Half day Mokoro into the delta but first by speed boat and then by traditional Mokoro (dugout canoe), deep into the Delta.

Mokoro's will be your main form of transport. These amazing traditional craft are perfectly designed for the narrow waterways of the Okavango and allow you to travel further into the Delta than if you were using more modern forms of transport. Mokoro's carry three people, two seated passengers and one driver. The driver stands in the rear of the canoe, (a real feat of balance), and uses a long wooden pole to propel and steer the Mokoro through the twisting channels. It really is the only way to travel in this area. Back to camp in the late afternoon for another night by the Okavango waters.

The Victoria Falls – Constitutes one of the most spectacular natural wonders of the world. The Local people call it “Mosi-oa-Tunya” — the smoke that thunders and the Falls are remarkable. There is a magic about them manifested in the towering column of spray when the river is high, the thunder of the falling water, the terrifying abyss and tranquil lagoons upstream in which hippo and deadly crocodiles lurk. The Victoria Falls is 1 708 meters wide, making it the largest curtain of water in the world. It drops between 90m and 107m into the Zambezi Gorge and an average of 550,000 cubic metres of water plummet over the edge every minute. Remarkably preserved in its natural state, Victoria Falls inspires visitors as much today as it did David Livingstone in the 1860's. The falls and the surrounding area have been declared National Parks and a World Heritage Site, thus preserving the area from excessive commercialization. Overnight at Victoria Falls Backpackers
